

The results of match 1 and 2 have taken me a little longer to produce than usual owing to my computer screen deciding to give up the ghost last weekend and the dilemma I faced over Lincoln Wellington - 26 of their athletes competed with duplicate numbers in the first match and 40 did the same in the second.

This caused havoc with my computer database because it checks each entry for what is usually a rare mistake and thus it refused to allow what it quite rightly interpreted as incorrect results to be input. I persevered to manually over-ride the errors in the first match by giving half of the Wellington athletes 'new' numbers and I labouriously went through all of the track slips and field cards amending them to suit. That took me two evenings to sort out.

I left a telephone message for their team captain on the Friday before match 2 in an attempt to stop the same mistake happening again. When I found the 40 'double-bookings' in match 2, I took advice from the LAA chairman and we agreed that because Wellington did not action my warning and continued to cause chaos it must forfeit the event points in match 2 for those athletes sharing identical numbers.

I'm sorry for the individual athletes that it has affected, but I wanted to get the results printed, photocopied and distributed to clubs as early as possible; and I do have a life outside of athletics even though I give up an awful lot of my spare time, Summer and Winter, for Lincolnshire and its clubs.

If it is any help, Rob Lewis has a set of the track result slips that he uses to pass on results to Athletics Weekly. I'm sure that he would make them available to Wellington for their perusal.

Tony Woollard.

A score of 0 (zero) is for one of the following reasons :

- (a) the athlete is the 3rd member of his/her club for sprint events;**
- (b) the athlete is the 4th member of that club for 800m + or field events;**
- (c) the athlete has entered too many events (maximum 3 + relay for U13-U17, 5 events for U20);**
- (d) the team is disqualified in a relay or has mixed ages in an U13-U20 team;**
- (e) there are irregularities on the declaration sheet such as duplicate numbers being issued.**

Points are shared where times are equal in track events or where field events remain tied on count-back rules.
